SOVITHYEA PRACH

Software Engineer • AI / ML Developer • Full-Stack Builder

Melbourne, Australia • prachsovithyea11@gmail.com • github.com/sovithyea • linkedin.com/in/sovithyeaprach

PROFILE

Computer Science (AI) student at Swinburne (graduating Nov 2026), Software Engineering & AI Innovation Intern at Rocket Academy, and founder of Yummers. I build and ship across mobile, web and ML, from React Native and Next.js to Python, FastAPI, Supabase, XGBoost and LLM APIs.

EXPERIENCE

Software Engineering & AI Innovation Intern | *Rocket Academy, Melbourne* Jul 2026 – Present

- Selected for a small cohort building production software and AI systems for a coding school serving 1,100+ families across 13 venues
- Worked on Athena, Rocket Academy's chat companion that reads students' LEGO® Education SPIKE™ block programs step by step and answers questions about them (TypeScript, Cloudflare Workers; 525 commits)
- Also Educator Lead for the Minecraft Education holiday camps (Sep – Oct 2026)

Founder & Lead Engineer | *Yummers, Phnom Penh* Jun 2026 – Present

- A social food diary for Phnom Penh: rate places, keep lists, see where friends eat; in iPhone beta at yummersapp.com
- React Native and Supabase, 852 commits; rebuilt from an earlier Next.js version (FoodRaccoon) for a sounder foundation
- Leading a team of 7; 4,176+ places in the Phnom Penh catalogue

President | *Swinburne Cambodian Student Association* Nov 2025 – Jun 2026

- Rose from volunteer to President; led the executive committee across cultural events, welfare and partnerships
- Coordinated Khmer New Year 2026, uniting Cambodian student associations from across Melbourne; 17 events, membership grown to 200+

FEATURED PROJECTS

Athena — AI Study Buddy for the BacII Exam

An AI study buddy for Cambodian Grade 12 students preparing for the BacII exam. Sole developer, 143 commits.

Stack: *Python, FastAPI*

SongRaccoon — AI Music Discovery Web App

Users describe what they want to hear in natural language; Claude curates song suggestions with reasoning, matched to real tracks via the Spotify API. Live at songraccoon.vercel.app.

Stack: *Next.js 14 (App Router), TypeScript, Supabase, Claude API, Spotify Web API, Upstash Redis, Vercel*

World Cup 2026 Match Predictor

Blends a calibrated XGBoost win/draw/loss classifier (15 features incl. ELO, form, head-to-head) with a Dixon-Coles Poisson model for scorelines. Trained on 49k+ international results; Streamlit dashboard.

Stack: *Python, pandas, scikit-learn, XGBoost, SciPy, Streamlit, Plotly*

OTHER PROJECTS

- **Hermes** — turns a book into a full-cast audiobook with free, local AI (Ollama, Kokoro TTS)
- **Karina** — private meeting recorder: local transcription and speaker separation, then notes and action items
- **Prompt Polish** — Chrome extension that rewrites rough prompts on AI chat sites; API key kept in a Cloudflare Worker
- **Lavender** — browser drone simulator for the CASA RePL practical test, with an iPhone as the remote (TypeScript, Three.js, WebSockets)

- **Coursework** — facial recognition, handwritten-digit recognition, FSAE vehicle localisation (IMU + GPS fusion with Visual SLAM), route guidance

TECHNICAL SKILLS

Languages: Python, TypeScript/JavaScript, SQL, Kotlin, C++

AI / ML: XGBoost, scikit-learn, PyTorch, TensorFlow, computer vision, LLM APIs (Claude), local models (Ollama, Whisper), prompt engineering

Mobile & Web: React Native, Next.js, React, FastAPI, Flask, Tailwind CSS, Three.js

Data & Cloud: Supabase/PostgreSQL, pandas, NumPy, SciPy, Cloudflare Workers, Vercel, Upstash Redis, AWS, Azure, GCP

Tools: Git, GitHub, Jupyter, Streamlit, Claude Code

EDUCATION

Bachelor of Computer Science (Artificial Intelligence) Mar 2025 – Nov 2026 (expected)

Swinburne University of Technology, Melbourne

- High Distinctions in 9 of 15 subjects, incl. Intelligent Systems, Database Design and Cloud Computing Architecture

Diploma of Information Technology (UniLink), Swinburne Jul 2024 – Jan 2025 • GPA 3.70

CERTIFICATIONS & LANGUAGES

- Anthropic: Claude Code 101, AI Fluency (2026) • Google: Prompt Design in Vertex AI; Multimodal RAG with Gemini
- Khmer (native) and English (professional working proficiency)

INTERESTS

Building side projects (AI tools, web apps), gaming, cooking, and following the World Cup.
